What Are Phonak Lumity Hearing Aids?

Phonak Lumity is a premium line of hearing aids designed for people with mild to severe hearing loss. They incorporate advanced technologies like SmartSpeech™ Technology, SpeechSensor, and Bluetooth® connectivity, delivering natural, clear, and comfortable sound.

Lumity hearing aids are available in multiple styles to suit every preference:

- Audéo Lumity (RIC/BTE models) – Rechargeable, Bluetooth compatible, perfect for daily use.
- Audéo Life Lumity – Waterproof and sweatproof, ideal for active users.

- Virto Lumity (Custom/ITE models) – Discreet, almost invisible devices.
- Sky Lumity (Pediatric models) – Lightweight, durable, and safe for children.

Key Features of Phonak Lumity Hearing Aids

1. SmartSpeech™ Technology

Enhances speech understanding in noisy environments by focusing on the main speech

signal. Reduces listening fatigue and improves conversation clarity.

2. SpeechSensor

Detects the direction of speech and prioritizes it, improving understanding by up to 15% and reducing listening effort by 11%, especially when speech comes from the side or rear.

3. Universal Bluetooth® Connectivity

Seamlessly connects to smartphones, TVs, tablets, and other Bluetooth-enabled devices for streaming calls, music, and videos.

4. Rechargeable and Eco-Friendly

Lithium-ion rechargeable batteries offer all-day power, reducing the need for disposable batteries and supporting eco-friendly use.

5. Waterproof and Sweatproof

Audéo Life Lumity is ideal for active lifestyles, allowing swimming, exercising, or outdoor activities without device damage.

6. Health Data Tracking

Some models track hearing activity, steps, and overall health data for better monitoring and personalized insights.
